

ALEXANDER OLAGUEZ

City of Chicago, Illinois | (312) 646-9621 | alexanderolaguez04@gmail.com

EDUCATION

University of Illinois Urbana-Champaign - The Grainger College of Engineering

Expected: May 2028

Bachelor of Science in Computer Engineering

City Colleges of Chicago - Wilbur Wright College, School of Engineering

Graduated: May 2026

Associate in Engineering Science, Engineering Pathway

GPA: 3.5/4.0

Related Coursework

Object-Oriented Programming in C++ I & II

Circuit Analysis

Differential Equations

Data Structures & Algorithms

Linear Algebra & Discrete Mathematics

Engineering Physics I, II & III

TECHNICAL SKILLS

Programming: C++, Python, HTML

Tools & Platforms: High-Performance Computing (HPC), GPU Computing, Slurm, Jupyter, Perlmutter (NERSC), VS Code, LTspice, CAD / 3D Modeling

EXPERIENCE

Argonne Leadership Computing Facility (ALCF), Argonne National Laboratory

Aug 2026

Intro to High-Performance Computing Bootcamp Participant

St. Charles, IL

- Developed and debugged a reproducible GPU-accelerated simulation workflow for the Deep Underground Neutrino Experiment (DUNE) using Python and Jupyter on the Perlmutter supercomputer.
- Submitted and monitored batch jobs with Slurm; analyzed particle-physics simulation outputs and created data visualizations to evaluate results.
- Documented the reproducible workflow and presented the team's methods and results in a final technical presentation.

Illinois Semiconductor Workforce Network (ISWN) at UIC

May 2025 - June 2025

Semiconductor Research Intern

Chicago, IL

- Performed semiconductor wafer-fabrication processes in a cleanroom, including photoresist application, hard bakes, chemical processing, etching, and metrology.
- Applied photolithography and semiconductor-device fundamentals while following laboratory-safety and contamination-control protocols.

Whole Foods Market

Jul 2023 - Aug 2024

Front End Team Member

Chicago, IL

- Managed inventory and customer-facing tasks in a fast-paced retail environment, resolving discrepancies and supporting operational efficiency.

PROJECTS

Self-Charging Kinetic Energy Harvesting Prosthetic

Sep 2023 - Dec 2023

3D Model Designer - CAD

- Designed a complete 3D CAD model for a self-charging prosthetic-limb concept that harvested kinetic energy, informed by contemporary prosthetic designs.
- Presented the design and engineering rationale to judges from academic and industry backgrounds.

LEADERSHIP & INVOLVEMENT

Institute of Electrical and Electronics Engineers @ Wright

Aug 2025 - Present

- Founding Officer - Co-founded and helped ratify Wright College's first IEEE chapter, expanding electrical and computer engineering opportunities for 50+ students in its first year.
 - Organized and led 8+ hands-on workshops covering circuit fundamentals, multimeter use, and prototyping.

HONORS & AWARDS

Illinois Space Grant Consortium Scholarship; CME Group Star Partnership Mayoral Award; Schreiber Scholarship; Options for the Future Scholarship; Deans List; Honors List
